

# **STATEMENT RELATED TO THE DISCLOSURE'S OBLIGATIONS RELATING TO REGULATION (EU) 2019/2088 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 27 NOVEMBER 2019 ON SUSTAINABILITY-RELATED DISCLOSURES IN THE FINANCIAL SERVICES SECTOR (SFDR) – INTRODUCTION**

**January 01, 2023**

BNP Paribas Group's mission is to contribute to responsible and sustainable growth by financing the economy and advising clients according to high ethical standards. The Group's Corporate Social Responsibility (CSR) policy is one of the main components of this approach. In line with the United Nations' Sustainable Development Goals (SDGs), it is based on four pillars (economic, social, civic and environmental) that reflect its CSR challenges, as well as the Bank's concrete achievements.

In 2019, BNP Paribas Group has published its corporate purpose, a text which was endorsed by the BNP Paribas Executive Committee, based on three texts resulting from a work with many different employees. These include: the Shared Convictions (Mission and Vision), the Code of conduct and the Engagement Manifesto.

Moreover, BNP Paribas Group has been committed for many years by setting itself additional obligations in several sensitive sectors through:

- Financing and investment policies in the following sectors: agriculture, palm oil, defence, nuclear energy, paper pulp, coal energy, mining and non-conventional hydrocarbons... (for an updated list of policies, please see the page [Financing and investment policies](#));

- A list of excluded goods and activities such as tobacco, drift nets, the production of asbestos fibres, products containing PCBs (polychlorinated biphenyls), or the trading of any species regulated by the CITES convention (Convention on international trade in endangered species of wild fauna and flora) without the necessary authorisation;
- Restriction lists which define the level of monitoring and constraint applied to companies which do not fully meet the Group's CSR requirements;
- In line with the United Nations' SDGs, the Group actively participates in designing and implementing long-term social and environmental solutions within the framework of both the Principles for Responsible Investment (PRI) and the Principles for Responsible Banking (PRB).
