

MAXIMUM COSTS AND CHARGES RELATED TO FORWARD FINANCIAL INSTRUMENTS

The costs and charges schedule below sets out the maximum costs and charges applicable to each transaction.

Depending on the nature and the complexity of the planned hedging transaction, the costs and charges involved in the transaction may exceed the figures indicated in this schedule. Should this occur, you will be notified beforehand and your approval will be required before the execution of the transaction.

Costs and charges are calculated based on the duration of the transaction and any potential early settlements.

Costs and charges can be asked before the execution of the transaction.

You will be notified in writing of any update to the costs and charges schedule.
