The Board of Directors of BNP Paribas met on 30 October 2014. The meeting was chaired by Baudouin Prot and the Board examined the Group's results for the third quarter 2013.

## **VERY GOOD OVERALL PERFORMANCE THANKS TO THE DIVERSIFIED BUSINESS AND GEOGRAPHIC MIX**

The Group delivered an overall very good performance thanks to its diversified business and geographic mix. There was a good sales and marketing drive, confirming the loyalty of institutional, corporate and individual clients. The Group closed two bolt-on acquisition deals this quarter with the buyout of the 50% stake that it did not own in LaSer and the acquisition of BGZ in Poland.

Revenues totalled 9,537 million euros, up 3.9% compared to the third quarter 2013. One-off items this quarter totalled -197 million euros (-138 million euros in the third quarter 2013) corresponding to Own Credit Adjustment (OCA) and own credit risk included in derivatives (DVA). Excluding these one-off items and at constant scope and exchange rates, revenues were up 2.8%.

Revenues grew in all the operating divisions, driven in particular by the specialised businesses, international retail and Fixed Income. They rose by 2.6%<sup>1</sup> compared to the third quarter 2013 and were up 2.8%<sup>1</sup> at Retail Banking<sup>2</sup>, 5.2%<sup>1</sup> at Investment Solutions and 2.9%<sup>1</sup> at Corporate and Investment Banking.

Operating expenses, at 6,623 million euros, were up by 3.8%. They include the one-off 148 million euro impact of Simple & Efficient transformation costs (145 million euros in the third quarter 2013).

Operating expenses of the operating divisions were up 2.6%<sup>1</sup>: the increase related to continued investments in business development plans was limited thanks to the impact of Simple & Efficient. Operating expenses were up 1.3%<sup>1</sup> at Retail Banking<sup>2</sup>, 4.3%<sup>1</sup> at Investment Solutions and 4.8%<sup>1</sup> at CIB.

Gross operating income was up 4.2% over the period at 2,914 million euros. It rose by 2.5%<sup>1</sup> for the operating divisions.

The Group's cost of risk was down 9.2% this quarter, at 754 million euros (47 basis points of outstanding customer loans), reflecting the Group's good risk control.

Pre-tax income thus came to 2,308 million euros (2,120 million in the third quarter 2013), up 8.9%.

Net income attributable to equity holders was 1,502 million euros (1,358 million euros in the third quarter 2013). Excluding one-off items, it was 1,730 million euros, up 12.5% compared to the same period a year earlier.

On 26 October 2014, the European Central Bank (ECB) published the results of its Comprehensive Assessment of the assets of the 130 most significant Eurozone banking groups. The assessment included a detailed review of the banks' assets (Asset Quality Review - AQR) and a Stress Test performed in close cooperation with the European Banking Authority (EBA).

The exercise was unprecedented in terms of scope and duration. BNP Paribas supplied 370 million data points and the ECB reviewed over 50% credit and market risk-weighted assets in a process that lasted for almost a year.

The overall impact of the AQR adjustments on BNP Paribas Group's CET1 ratio as at 31 December 2013 was minor: -15 basis points, of which 8 basis points were already included in the CET1 ratio published on 30 June 2014. This places BNP Paribas amongst the best comparable European banks. The Group has factored in the AQR results in the fully loaded Basel 3 common equity Tier 1 ratio<sup>1</sup> as at 30 September 2014 which came to 10.1%.

The Stress Test results also show the Group's ability to withstand a severe stress scenario, based on extremely severe assumptions with respect to the evolutions of economic and market conditions.

The results of the assessment conducted by the ECB and the EBA thus confirm the Group's balance sheet solidity, the quality of its assets and the rigor of its risk management policy.

The fully loaded Basel 3 leverage ratio<sup>2</sup> was 3.5%<sup>3</sup>. The Group's immediately available liquidity reserve is 268 billion euros (244 billion euros as at 30 June 2014), equivalent to over one year of room to manoeuvre in terms of wholesale funding.

Lastly, the Group continues to reinforce its compliance and control procedures: it is implementing the remediation plan agreed as part of the comprehensive settlement with the U.S. authorities and is reinforcing its internal control system.

Revenues totalled 29,018 million euros, up 0.3% compared to the first nine months of 2013. It included -313 million euros in one-off items compared to +161 million euros for the same period a year earlier. BNP Paribas thus posted for the first nine months of the year -1,147 million euros in net income attributable to equity holders (4,708 million euros for the first nine months of 2013). ## **RETAIL BANKING**

### **DOMESTIC MARKETS**

Domestic Markets' deposits grew 2.8% compared to the third quarter 2013, with good growth in France, in Belgium and at Cortal Consors in Germany. Outstanding loans were down slightly by 0.2%, with a stabilisation of the demand for loans. The sales and marketing drive at Domestic Markets was reflected in leading positions in cash management in France, Belgium and Italy (Euromoney 2014). Domestic Markets also rolled out new branch layouts across the networks with differentiated formats and a new customer in-branch experience.

Revenues<sup>2</sup>, at 3,923 million euros, were up 0.9% compared to the third quarter 2013 with strong growth at Arval and Leasing Solutions partly offset by the impact of a persistently low interest rate environment. Gross operating income<sup>2</sup> was 1,415 million euros, up 2.2% compared to the same quarter a year earlier.

Given the rise in the cost of risk in Italy, and after allocating one-third of Private Banking's net income from Domestic Markets to the Investment Solutions division, pre-tax income<sup>3</sup> was 862 million euros, down 4.0% compared to the third quarter 2013.

They helped Domestic Markets produce a positive 1.1 point jaws effect. The cost/income ratio<sup>1</sup> thus improved in France, in Italy and in Belgium, totalling 62.7% for the whole of Domestic Markets (-0.8 point compared to the first 9 months of 2013). ### **French Retail Banking (FRB)**

Revenues<sup>3</sup> were 1,707 million euros, down 2.2% compared to the third quarter 2013. Net interest income was down 2.1% because of a persistently low interest rate environment and fees were down 2.4% due, in particular, to the capping of certain processing fees by French banking legislation since 1<sup>st</sup> January.

Thanks to the continued effect of operating efficiency measures, operating expenses<sup>3</sup> were down 1.3% compared to the third quarter 2013.

Gross operating income<sup>3</sup> thus came to 560 million euros, down 4.1% compared to the same quarter a year earlier.

For the first nine months of the year, revenues<sup>3</sup> were down 0.5%<sup>2</sup> due to the unfavourable level of interest rates and lower capital gains from loan sales. Operating expenses<sup>3</sup> rose by 3.6%<sup>2</sup> because of the increase in regulatory costs starting in the second half 2013 and the bolstering of the commercial setups. The cost/income ratio<sup>3</sup> thus rose by 2.5 points<sup>2</sup>, to 64.9%. *Figures included in this presentation are unaudited. On 14 March 2014, BNP Paribas issued a restatement of its quarterly results for 2013 reflecting, in particular, (i) the adoption of the accounting standards IFRS 10 "Consolidated Financial Statements", IFRS 11 "Joint Arrangements", which has, in particular, the effect of decreasing the Group's 2013 net income attributable to equity holders by €14m, as well as the amended IAS 28 "Investments in Associates and Joint Ventures"; (ii) certain internal transfers of activities and results made as of 1 January 2014, in the context of the medium-term plan, (iii) the application of Basel 3 which modifies the capital allocation by division and business line and (iv) the evolution of allocation practices of the liquidity costs to the operating divisions in order to align them to the Liquidity Coverage Ratio approach. Moreover, in order to ensure the comparability with the future 2014 results, pro-forma 2013 accounts have been prepared considering TEB group under full consolidation for the whole year. In these restated results, data pertaining to 2013 has been represented as though the transactions had occurred on 1st January 2013. This presentation is based on the restated 2013 quarterly data.*
