Note Disclaimer

This document must be read in conjunction with the Final Terms dated the Issue Date (when available) and the Base Prospectus and any Supplements to the Base Prospectus (together the "Base Prospectus") and these documents prevail over any prior communications or materials relating to the terms of the securities described in this document (the "Securities"). Neither BNP Paribas nor any of its affiliates (together, "BNP Paribas") gives any assurance that any transaction will be entered into on the basis of these terms and no specific issuer shall be obliged to issue any security or instrument on such terms. The information contained herein is provided to you only and it may not be copied, reproduced or otherwise distributed by you other than in compliance with the applicable securities laws and regulations in force in the jurisdiction(s) in which you offer the Securities. The Securities may be offered to the public in Switzerland however no action has been or will be taken in any other jurisdiction that would, or is intended to, permit a public offering of the Securities. If you subscribe for the Securities once issued, these will be sold to you as principal and on the understanding that you will comply with all securities laws and public offer requirements in jurisdictions where you place or resell the Securities, including, without limitation, Directive 2003/71/EC (the "EU Prospective Directive") and the relevant implementing measures in any EU member state. As you may not be the only purchaser of the Securities from us, any public offer exemption relying on offers only being made to a restricted number of investors (classified by type or location as applicable) may not be available. In addition, the Securities may not be offered or sold in the United States or to U.S. Persons (as defined in regulations under the U.S. Securities Act of 1933 or the U.S. Internal Revenue Code) at any time. The Securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or the securities laws of any state in the United States, and are subject to U.S. Tax requirements. In purchasing the Securities the purchaser represents and warrants that it is neither located in the United States nor a U.S. Person and that it is not purchasing for the account or benefit of any such person. The Securities may not be offered, sold, transferred or delivered without compliance with all applicable securities laws and regulations.

By agreeing to purchase any Securities once issued, each purchaser of Securities confirms that (i) it is acting as principal for its own account and has made its own independent decision as to whether or not to invest in the Securities and as to whether such Securities are appropriate, suitable and proper for it based upon its own judgment and any advice from accounting, tax, regulatory and/or other advisors as it has seen fit; (ii) it is not relying on any communication (written or oral, including the information and explanations provided in this term sheet or in any marketing material provided to it by BNP Paribas) (unless otherwise agreed in writing with BNP Paribas), and it has not received from BNP Paribas any assurance or guarantee as to the expected results of any investment in the Securities and it acknowledges that BNP Paribas owes no duty to it to exercise any judgement as to the merits or suitability of the Securities for it; (iii) it is capable of understanding and assessing the merits of an investment in and the value of the Securities (by itself or through independent professional advice, including in relation to all financial, legal, regulatory, accounting and tax aspects), and understands and accepts the terms, conditions and risks involved in an investment in the Securities and it is capable of assuming such risks; and (iv) it acknowledges that it is its responsibility to review the offering documentation relating to the Securities to ensure that such documentation is acceptable to it. In addition, by agreeing to purchase any Securities once issued, each purchaser undertakes that, in placing or reselling any of the Securities (a) it will comply with all relevant securities or other laws and regulations and public offer requirements in each relevant jurisdiction, including, without limitation, the EU Prospectus Directive and implementing legislation; (b) to the extent required by applicable law or regulation, it is solely responsible for determining whether any purchaser of any Securities from it is eligible to purchase such Securities and whether an investment in such Securities is appropriate and proper for such purchaser in the light of investor suitability considerations; (c) it will not hold itself out as agent or partner of BNP Paribas or any of its affiliates in relation to any such placement or resale; (d) in the event of onward sale of any Securities to any third party, it will deliver all information and documentation (including risk disclosures) which may be necessary and supply sufficient information in order for such third party to make an informed investment decision with respect to any investment in such Securities; and (e) it will not make any representations in relation to any Securities other than as specified in any related marketing materials prepared and/or approved by BNP Paribas.

Financial transactions such as a purchase of the Securities will involve various risks which may in each case include risks of variation in interest rates, exchange rates, correlation, default risk, indicators of creditworthiness or perceived creditworthiness of one or more underlying entities, and/or the prices or levels of securities, commodities, funds and/or indices and lack of liquidity – see the Risk Factors section of the Base Prospectus and (if any) of the supplement relating to the Securities for further details. The return on these Securities may be variable or contingent and any return anticipated by a purchaser of securities may, therefore, not be realised. In addition, the holder of the Securities will either be exposed to (i) the unsecured credit risk of the Issuer and, if applicable, any Guarantor; and/or (ii) where the Issuer is a bankruptcy-remote special purpose entity, the credit risk of any collateral ring-fenced for the purposes of the Securities and that of any swap counterparty, custodian, guarantor or other entity on which the Issuer is relying in order to finance the scheduled cashflows on the Securities. Securities may, under their terms, be principal protected but this does not in and of itself alter or mitigate this credit risk and (unless otherwise stated) principal protection (i) only applies in respect of the nominal amount of the Securities, and (ii) only applies at maturity and hence any redemption prior to maturity may be at less than par. Where Securities are not, under their terms, principal protected, there is also a risk of partial or total loss of the principal amount of the Securities in accordance with their terms, and such Securities should therefore only be considered by persons who can withstand a loss of their entire investment. Further, where these Securities involve leverage, it must be recognised that whilst leverage presents opportunities to increase profit, it also has the effect of potentially increasing losses. Such losses may therefore significantly diminish the performance of the Securities in a relatively short time. There may not be any active or liquid secondary trading market for the Securities or any market at all. Accordingly, purchasers should note that it may not be possible to liquidate or sell the Securities for a substantial period of time, if at all, and if liquidated or sold, the amount realised from such liquidation or sale may be significantly less than the amount paid by the purchaser to purchase the Securities and/ or the present value of the expected cashflows of the Securities. Any reference to an Issue Price herein is not necessarily an expression of the market value of the Securities and the initial placement of the Securities (if issued) by any dealer may be executed at prices above or below such Issue Price.

In view of these risks, purchasers or potential purchasers of the Securities should have the requisite knowledge and experience to assess the characteristics and risks associated with the Securities. BNP Paribas will provide any additional information, reasonably requested by the purchaser or potential purchaser prior to purchase of the Securities, in order to enable it to assess the risks and characteristics of the Securities. However, no information will be provided by BNP Paribas with respect to any entity or the obligations of any entity referred to in this document. In no circumstances shall BNP Paribas be obliged to disclose to investors any information which it has received on a confidential basis or the existence thereof. Accordingly, when the purchaser acquires the Securities, it will be deemed to understand and accept the terms, conditions and risks associated with it. The Issuer reserves the right not to issue the Securities described herein in its sole discretion. BNP Paribas may (or may in the future) be long or short, or may have a financial interest in, any securities, loans or any other underlying asset described herein. Furthermore, BNP Paribas or its affiliates may face possible conflicts of interest in connection with certain duties to be carried out in respect of the Securities. Purchasers should ensure that they understand and accept the identities of such parties and the roles they play in relation to the Securities. It is also understood that all information given by BNP Paribas related to the terms and conditions of Securities shall not be considered investment advice or as a recommendation to acquire, hold, dispose of or otherwise deal in any Securities (unless otherwise agreed in writing by BNP Paribas).
