In addition, Société Générale may provide further information to its own clients upon request. |

DISCLAIMERS**IMPORTANT WARNING:**

Investors must read carefully the information provided in the section "Important information for investors" of the terms and conditions. In particular, the attention of the investors is drawn to the following:

Credit risk: Investors take an ultimate credit risk on Société Générale as guarantor of the obligations of the Issuer in respect of the product according to the terms and conditions of the guarantee (available at the Guarantor's office upon request). Thus Société Générale's insolvency may result in the partial or total loss of the invested amount. The market value of the product can decrease significantly below its nominal value as a result of Société Générale's creditworthiness.

For credit linked products, investors will also be exposed to the credit risk of the reference entity(ies) mentioned in such product, i.e. the reference entity's(ies) insolvency may result in the partial or total loss of the invested amount.

Risk relating to the European Bank Recovery and Resolution Directive (the Directive)– Bail-in tool : From 1 January 2016, the relevant resolution authority may write-down or convert into equity all or part of the nominal amount of the product which may result in a partial or total loss of the invested amount. Moreover, the exercise of any power under the Directive, or any suggestion of such exercise, could materially and adversely affect the rights of investors, the price or value of their investment (in each case, irrespective of any capital protection provided in such product) and/or the ability of the Issuer to satisfy its obligations under the product. All references in the deed of guarantee to sums or amount payable by the Issuer should be to sums or amounts as reduced or modified from time to time resulting from the application of the bail-in tool by any relevant authority.

Recourse limited to the Guarantor: By investing in this product investors acknowledge that they shall have no recourse against the issuer in the event of a payment default by the issuer with respect to any amount due under the product, i.e. no investor has the

right to institute any proceeding or to otherwise assert a claim against the issuer of the product to enforce the relevant payment under the product. However, this is without prejudice to the investors' rights under the Guarantee of the Guarantor.

Information when products do not offer capital protection: For products which include a risk of capital loss, the redemption value of such products may be less than the amount initially invested. In a worst case scenario, investors could sustain the loss of their entire investment. Moreover, regardless the formula linked to the redemption amount, the investor may lose part or all of the initially invested amount (i) before the maturity date, if the product is sold by the investor or early redeemed by the Issuer or (ii) at maturity date, if the increased cost of hedging is deducted from any amount due on such date.

U.S. Selling Restrictions: The Notes described herein are not U.S. Exempt Securities. Accordingly, the Notes have not been registered under the U.S. Securities Act of 1933 and may not be offered, sold, pledged or otherwise transferred at any time except in an "offshore transaction" (as defined under Regulation S) to or for the account or benefit of a Permitted Transferee. A "**Permitted Transferee**" means any person who: (a) is not a U.S. person as defined in Rule 902(k)(1) of Regulation S; and (b) is not a person who comes within any definition of U.S. person for the purposes of the U.S. Commodity Exchange Act (**CEA**) or any rule of the U.S. Commodity Futures Trading Commission (**CFTC Rule**), guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons," shall be considered a U.S. person). The Notes are available only to, and may only be legally or beneficially owned at any time, by Permitted Transferees. By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to make certain acknowledgements, representations and agreements set out in the base prospectus.

IMPORTANT INFORMATION FOR INVESTORS

The terms and conditions are indicative and may change with market fluctuations.

Prior to investing in the product, investors should seek independent financial, tax, accounting and legal advice.

Market risk: the product may at any time be subject to significant price movement which may in certain cases lead to the loss of the entire amount invested.

Certain products may include embedded leverage, which amplifies the variation, upwards or downwards, in the value of the underlying instrument(s), which may result, in a worst case scenario, in the partial or total loss of the invested amount.

Risk relating to unfavourable market conditions: The fluctuations in the marked-to-market value of certain products may require the investor to make provisions or resell the products in whole or in part before maturity, in order to enable the investor to comply with its contractual or regulatory obligations. As a consequence, the investor may have to liquidate these products under unfavourable market conditions, which may result in the partial or total loss of the invested amount. This risk will be even higher if these products include leverage.

Liquidity risk: For certain products, there is no liquid market on which such products can be easily traded, and this may have a material adverse effect on the price at which such products might be sold. As a consequence, the investor may lose part or all of the invested amount.

Certain exceptional market circumstances may also have a negative effect on the liquidity of the product, and even render the product entirely illiquid, which may make it impossible to sell the product and result in the partial or total loss of the invested amount.

Information in the event of a buy back by Société Générale or of an early termination of the product: Although there is no general undertaking from Société Générale to buy back, terminate early or propose prices for products during the life of such products, Société Générale may expressly commit to do so on a case by case basis. The performance of this commitment shall depend on (i) general market conditions and (ii) the liquidity conditions of the underlying instrument(s) and, as the case may be, of any other hedging transactions. The price of such products (in particular, the "bid/offer" spread that Société Générale may propose from time to time for the repurchase or early termination of such products) will include, inter alia, the hedging and/or unwinding costs generated by such a buy back for Société Générale. Société Générale and/or its subsidiaries cannot assume any responsibility for such consequences and for their impact on the transactions relating to, or investment into, the relevant products.

Events affecting the underlying instrument(s) or hedging transactions: In order to take into account the consequences of certain events affecting the underlying instrument(s) on the product or hedging transactions, the product's documentation provides for (a) mechanisms to adjust or substitute underlying instrument(s), (b) the deduction of the increased cost of hedging from any due amount, (c) monetization and accordingly, de-indexation of the pay-off formula for all or part of the amounts payable under the product from the underlying instrument(s), and (d) the early redemption of the product. Any of these measures may result in losses on the product.

Information on data and/or figures drawn from external sources: The accuracy, completeness or relevance of the information which has been drawn from external sources is not guaranteed although it is drawn from sources reasonably believed to be reliable. Subject to any applicable law, neither Société Générale nor the issuer shall assume any liability in this respect.

Information on simulated past performance and/or on future performance and/or on past performance: The value of your investment may fluctuate. When simulated past performance or past performance is displayed, the figures relating thereto refer or relate to past periods and are not a reliable indicator of future results. This also applies to historical market data. When future performance is displayed, the figures relating to future performance are a forecast and are not a reliable indicator of future results. Furthermore, where past performance or simulated past performance relies on figures denominated in a currency other than that of the country of residence of an investor, the return for such investor may increase or decrease as a result of currency fluctuations. Finally, when past or future performance or simulated past performance is displayed, the potential return may also be reduced by the effect of commissions, fees, taxes or other charges borne by the investor.

General selling restrictions: It is each investor's responsibility to ascertain that it is authorized to subscribe for, or invest into, or to on-sell this product.

Further, the underlying instrument(s) of certain products may not be authorised to be marketed in the country(ies) where such products are offered. The attention of investors is drawn to the fact that the offering of these products in this (these) country(ies) in no way constitutes an offer, or an invitation to make an offer, to subscribe to, or purchase, the underlying instrument(s) in such country(ies).

Information on commissions, remunerations paid to, or received from third parties: If, under applicable laws and regulations, any person (the "Interested Party") is required to disclose to prospective investors in the product any commission or remuneration that Société Générale and/or the issuer pay(s) to, or receives from, such Interested Party in respect of the product, the Interested Party shall be solely responsible for compliance with such laws and regulations.

Currency exchange risk: When the underlying asset(s) is/are quoted and/or expressed in a foreign currency and/or, in the case of an index or an asset basket, it contains components expressed and/or quoted in one or several foreign currency(ies), the value of the investment may increase or decrease as a result of the value of such currency(ies) against the euro or any other currency in which the product is expressed, unless the product includes a currency exchange guarantee.

Authorisation: Société Générale is a French credit institution (bank) that is authorised and supervised by the European Central Bank (ECB) and the Autorité de Contrôle Prudentiel et de Résolution (ACPR) (the French Prudential Control and Resolution Authority) and regulated by the Autorité des marchés financiers (the French financial markets regulator) (AMF).

For any country of the European Economic Area (i) in which the product is not admitted to trading on a regulated market and (ii) not expressly referred to, in this document, as a country in which a public offer of the product is authorised, this PRODUCT IS OFFERED ON A PRIVATE PLACEMENT BASIS and no prospectus has been approved in that country by the local regulator. The product cannot thus be distributed in that country by way of an offer, or an invitation to make an offer of securities to the public, as defined in Article 2.1(d) of Directive 2003/71, as amended from time to time (the "Prospectus Directive"), save in those circumstances (commonly called "private placement") set out in Article 3.2 of the Prospectus Directive.

Warning regarding the Index: The index referred to herein (the "Index") is not sponsored, approved or sold by Société Générale. Société Générale shall not assume any responsibility in this respect.
