Final Terms and Conditions

EUR Capped and Floored Floater Note – 5 Years

100% Principal Protected Note - Public Offer in Luxembourg and Switzerland

This following product is a derivative financial instrument offering investors quarterly interest payments at a rate equal to 3 month EURIBOR, subject to a minimum annualised rate of 1.20% and a maximum annualised rate of 4.00%. The interest rate for the first quarterly interest period is fixed on the Issue Date and is re-fixed on the first day of each subsequent quarterly interest period. On the Maturity Date, the Notes will be redeemed at their full Nominal Amount. The Notes may be of interest to investors who wish to protect their initial investment while earning an amount of interest which will be the equivalent of at least 1.20% per annum, but who are also prepared to limit the amount of interest they receive to an equivalent of 4.00% per annum.

Alternatively, the Notes may be sold directly to the purchasers/investors pursuant to an offer and sale arranged by the distributor. In these circumstances BNP Paribas UK Limited will pay to the distributor a distribution fee. Such discount/distribution fee received by the distributor may be in addition to the brokerage cost/fee normally applied by the distributor. The purchaser/investor acknowledges that such discount/distribution fee may be retained by the distributor. Further information regarding such discount/distribution fee is available from the distributor on request.</p>
II. Profit and Loss Prospects / Taxation	
Profits Prospects	<p>The Notes will be redeemed on the Maturity Date at 100% of the Nominal Amount per Note. All potential profit on the Notes is represented by the interest payable on the Notes. The amount of interest payable over the terms of the Notes is floored at 6% of the Nominal Amount per Note, and is capped at 20.00% of the</p>

Nominal Amount per Note. Any subscription premium paid by investors above the par-value of the Notes will have the effect of reducing the potential profit.

Loss Prospects

The Notes are principal protected at maturity. Losses that investors may suffer are therefore limited to any excess by which the subscription price paid by investors for the Notes is above the minimum amount of total interest (6.00% of the Nominal Amount per Note) payable during the term of the Notes.

In the event that the Notes are redeemed early as a consequence of an Event of Default, for taxation reasons or certain other events affecting any underlying and/or hedge, Noteholders will receive an amount per Note equal to the fair market value of each Note less the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements. Such amount may be less than the Nominal Amount of each Note or even zero.

Swiss Tax Considerations

The following Swiss tax summary is valid at the time of the issuance of the product. It is for general information only and does not purport to be a comprehensive description of all Swiss tax consequences that may be relevant to a decision to purchase, own or dispose of the product. Swiss tax laws and the practice of the Swiss tax authorities may change, possibly with retroactive effect. Prospective Swiss resident, EU resident and third country resident purchasers of the product should consult their own tax advisers concerning the tax consequences of purchasing, holding and disposing of the product in the light of their particular circumstances.

Swiss Federal Stamp Duty

This product is not subject to Swiss stamp issuance tax. Secondary market transactions concerning the product are subject to Swiss stamp transfer tax if they are made by or through the intermediary of a Swiss bank or Swiss securities dealer and no exemption applies.

Swiss Withholding Tax

This product is not subject to Swiss withholding tax.

Swiss Tax Treatment

This product is classified for Swiss tax purposes as a non-Swiss bond without predominantly one-time interest payment ("non-IUP").

As a result, the coupon payments generated by the product are taxable income at payment date for Swiss resident individual investors. Any gain on the disposal of the product is tax-free for Swiss resident individual investors holding the product for private investment purposes.

A capital loss is not tax-deductible.

EU Saving Tax

Coupons paid by Swiss paying agents to a beneficial owner who is an EU resident individual are subject to retention of 35% EU Savings Tax (Telekurs Code 1). The Swiss paying agent may be explicitly authorised by the beneficial owner of the interest payment to report interest payments to the Swiss Federal Tax Administration, which will then substitute the tax retention.

III. Important Risks

General

An investment in the Notes involves a high degree of risk, which may include price risks associated with any underlying, interest rate, foreign exchange, time value and political risks.

Product Risks

Potential investors must have the knowledge and experience necessary to enable them to evaluate the risks and merits of an investment in the Notes. Any prospective investor should determine, based on its own independent review and such professional advice (including, without limitation, tax, accounting, credit, legal and regulatory advice) as it deems appropriate under the circumstances, that its acquisition and holding of the Notes (i) is fully consistent with its financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and (iii) is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. In making such determination, a prospective investor should consider carefully all the information set forth in the Final Terms and the Base Prospectus.

Capital Protection:

The Notes are capital protected at maturity.

Issuer Risk:

Notes are unsecured obligations: The Notes retention of value is dependent not only on the development of the value of any underlying but also the creditworthiness of the Issuer, which may change over the term of the product. The Notes are direct unsecured obligations of the Issuer and will rank pari passu with all other direct unsecured obligations of the Issuer. In addition, the Issuer's ability to fulfil its obligations under the Notes may be affected by certain other factors, including liquidity risks, market risks, credit risks, cross-border and foreign exchange risks, operational risks, legal and regulatory risks and competition risks.

Early Redemption:

The Terms and Conditions in the Base Prospectus provide for early redemption on the occurrence of an Event of Default, for taxation reasons and certain other events affecting any underlying and/or or hedge whereupon the Calculation Agent shall calculate the fair market value of each Note less the cost to the Issuer

and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Noteholders in accordance with the Condition 12 of the Base Prospectus. The amount Noteholders receive as a consequence of such early redemption may be less than the Nominal Amount or each Note [or even zero].

Noteholders who choose to reinvest monies received as a consequence of early redemption of the Notes may be able to do so only in securities with a lower yield than the redeemed Notes.

Possible Illiquidity of the Notes in the secondary market:

It is not possible to predict the price at which Notes will trade in the secondary market. The trading market for the Notes may be volatile and may be adversely impacted by many events. An active trading market for the Notes may not develop. The Issuer may, but is not obliged at any time purchase Notes in the open market. Any Notes so purchased may be resold or surrendered for cancellation. To the extent the Notes are cancelled the number of Notes outstanding will decrease resulting in diminished liquidity for the remaining Notes. A decrease in the liquidity of the Notes may cause, in turn, an increase in the volatility associated with the price of the Notes. There may be no secondary market for the Notes and to the extent that such secondary market becomes illiquid, Noteholders may have to wait until redemption of the Notes to realise greater value than their then trading value.

Unpredictable Market Value:

The market value of, and expected return on, the Notes may be influenced by a number of factors, some or all of which may be unpredictable (and which may offset or magnify each other), such as (i) supply and demand for the Notes, (ii) the development of any underlying (iii) economic, financial, political and regulatory or judicial events that affect the Issuer, any underlying or financial markets generally, (iv) interest and yield rates in the markets generally, (v) the time remaining until the Maturity Date and (vi) the creditworthiness of the Issuer.. Such factors may mean that the trading price of the Notes is below the Nominal Amount. In the secondary market a bid/ask spread will generally apply.

Effective yield:

A Noteholder's effective yield on the Notes may be reduced from the stated yield by transaction costs and/or the tax impact on that Noteholder of its investment in the Notes.

Additional Risks

In addition potential investors should read the section in the Base Prospectus entitled 'Risk Factors'.

Disclaimer

This document must be read in conjunction with the Final Terms dated the Issue Date (when available) and the Base Prospectus and any Supplements to the Base Prospectus (together the "**Base Prospectus**") and these documents prevail over any prior communications or materials relating to the terms of the securities described in this document (the "**Securities**"). This document sheet does not constitute an offer or solicitation to buy or sell any security or otherwise to enter into any transaction. Neither BNP Paribas nor any of its affiliates (together, "**BNP Paribas**") gives any assurance that any transaction will be entered into on the basis of these terms and no specific issuer shall be obliged to issue any security or instrument on such terms. This document is not intended for any Retail Client, as defined in Directive 2004/39/EC ("MiFID") and the relevant implementing measures in any EU member state. The information contained herein is provided to you alone and you agree that and it may not be copied, reproduced or otherwise distributed by you, other than in compliance with the applicable securities laws and regulations in force in the jurisdiction(s) in which you offer the Securities. The Securities may be offered to the public in Switzerland however no action has been or will be taken in any other jurisdiction that would, or is intended to, permit a public offering of the Securities. If you subscribe for the Securities once issued, these will be sold to you as principal and on the understanding that you will comply with all securities laws and public offer requirements in jurisdictions where you place or resell the Securities, including, without limitation, Directive 2003/71/EC (the "EU Prospective Directive") and the relevant implementing measures in any EU member state. As you may not be the only purchaser of the Securities from us, any public offer exemption relying on offers only being made to a restricted number of investors (classified by type or location as applicable) may not be available. In addition, the Securities may not be offered or sold in the United States or to U.S. Persons (as defined in regulations under the U.S. Securities Act of 1933 or the U.S. Internal Revenue Code) at any time. The Securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or the securities laws of any state in the United States, and are subject to U.S. Tax requirements. In purchasing the Securities the purchaser represents and warrants that it is neither located in the United States nor a U.S. Person and that it is not purchasing for the account or benefit of any such person. The Securities may not be offered, sold, transferred or delivered without compliance with all applicable securities laws and regulations.

By agreeing to purchase any Securities once issued, each purchaser of Securities confirms that (i) it is acting as principal for its own account and has made its own independent decision as to whether or not to invest in the Securities and as to whether such Securities are appropriate, suitable and proper for it based upon its own judgment and any advice from accounting, tax, regulatory and/or other advisors as it has seen fit; (ii) it is not relying on any communication (written or oral, including the information and explanations provided in this document or in any marketing material provided to it by BNP Paribas) (unless otherwise agreed in writing with BNP Paribas), and it has not received from BNP Paribas any assurance or guarantee as to the expected results of any investment in the Securities and it acknowledges that BNP Paribas owes no duty to it to exercise any judgement as to the merits or suitability of the Securities for it; (iii) it is capable of understanding and assessing the merits of an investment in and the value of the Securities (by itself or through independent professional advice, including in relation to all financial, legal, regulatory, accounting and tax aspects), and understands and accepts the terms, conditions and risks involved in an investment in the Securities and it is capable of assuming such risks; and (iv) it acknowledges that it is its responsibility to review the offering documentation relating to the Securities to ensure that such documentation is acceptable to it. In addition, by agreeing to purchase any Securities once issued, each purchaser undertakes that, in placing or reselling any of the Securities (a) it will comply with all relevant securities or other laws and regulations and public offer requirements in each relevant jurisdiction, including, without limitation, the EU Prospectus Directive and implementing legislation; (b) to the extent required by applicable law or regulation, it is solely responsible for determining whether any purchaser of any Securities from it is eligible to purchase such Securities and whether an investment in such Securities is appropriate and proper for such purchaser in the light of investor suitability considerations; (c) it will not hold itself out as agent or partner of BNP Paribas or any of its affiliates in relation to any such placement or resale; (d) in the event of onward sale of any Securities to any third party, it will deliver all information and documentation (including risk disclosures) which may be necessary and supply sufficient information in order for such third party to make an informed investment decision with respect to any investment in such Securities; and (e) it will not make any representations in relation to any Securities other than as specified in any related marketing materials prepared and/or approved by BNP Paribas.

Financial transactions such as a purchase of the Securities will involve various risks which may in each case include risks of variation in interest rates, exchange rates, correlation, default risk, indicators of creditworthiness or perceived creditworthiness of one or more underlying entities, and/or the prices or levels of securities, commodities, funds and/or indices and lack of liquidity – see the Risk Factors section of the Base Prospectus and (if any) of the supplement relating to the Securities for further details. The return on these Securities may be variable or contingent and any return anticipated by a purchaser of securities may, therefore, not be realised. In addition, the holder of the Securities will either be exposed to (i) the unsecured credit risk of the Issuer and, if applicable, any Guarantor; and/ or (ii) where the Issuer is a bankruptcy-remote special purpose entity, the credit risk of any collateral ring-fenced for the purposes of the Securities and that of any swap counterparty, custodian, guarantor or other entity on which the Issuer is relying in order to finance the scheduled cashflows on the Securities. Securities may, under their terms, be principal protected but this does not in and of itself alter or mitigate this credit risk and (unless otherwise stated) principal protection (i) only applies in respect of the nominal amount of the Securities, and (ii) only applies at maturity and hence any redemption prior to maturity may be at less than par. Where Securities are not, under their terms, principal protected, there is also a risk of partial or total loss of the principal amount of the Securities in accordance with their terms, and such Securities should therefore only be considered by persons who can withstand a loss of their entire investment. Further, where these Securities involve leverage, it must be recognised that whilst leverage presents opportunities to increase profit, it also has the effect of potentially increasing losses. Such losses may therefore significantly diminish the performance of the Securities in a relatively short time. There may not be any active or liquid secondary trading market for the Securities or any market at all. Accordingly, purchasers should note that it may not be possible to liquidate or sell the Securities for a substantial period of time, if at all, and if liquidated or sold, the amount realised from such liquidation or sale may be significantly less than the amount paid by the purchaser to purchase the Securities and/ or the present value of the expected cashflows of the Securities. Any reference to an Issue Price herein is not necessarily an expression of the market value of the Securities and the initial placement of the Securities (if issued) by any dealer may be executed at prices above or below such Issue Price.

In view of these risks, purchasers or potential purchasers of the Securities should have the requisite knowledge and experience to assess the characteristics and risks associated with the Securities. BNP Paribas will provide any additional information, reasonably requested by the purchaser or potential purchaser prior to purchase of the Securities, in order to enable it to assess the risks and characteristics of the Securities. However, no information will be provided by BNP Paribas with respect to any entity or the obligations of any entity referred to in this document. In no circumstances shall BNP Paribas be obliged to disclose to investors any information which it has received on a confidential basis or the existence thereof. Accordingly, when the purchaser acquires the Securities, it will be deemed to understand and accept the terms, conditions and risks associated with it. The Issuer reserves the right not to issue the Securities described herein in its sole discretion. BNP Paribas may (or may in the future) be long or short, or may have a financial interest in, any securities, loans or any other underlying asset described herein. Furthermore, BNP Paribas or its affiliates may face possible conflicts of interest in connection with certain duties to be carried out in respect of the Securities. Purchasers should ensure that they understand and accept the identities of such parties and the roles they play in relation to the Securities. It is also understood that all information given by BNP Paribas related to the terms and conditions of the Securities shall not be considered investment advice or as a recommendation to acquire, hold, dispose of or otherwise deal in any Securities (unless otherwise agreed in writing by BNP Paribas). Any illustrative price quotations, disclosure materials or analyses provided to you have been prepared on the basis of assumptions and parameters that reflect our good faith judgment or selection and, therefore, no guarantee is given as to the accuracy, completeness or reasonableness of any such quotations, disclosures or analyses.
