BRIEF OVERVIEW OF THE CASH MANAGEMENT SOLUTIONS AVAILABLE IN LUXEMBOURG AND BEYOND

Physical Cash Pooling

Centralise your liquidity to optimise the management of your group's cash. Our services are available across our BNP Paribas international network and those of our partner banks.

Simple

- You automate your cash transfers, save time and gain efficiency.
- You consolidate and control your group's liquidity and globalise your investment strategy.

Comprehensive

Our multi-bank solution enables you to integrate local banks into your cash pooling operations without modifying your existing bank relationships.

- You benefit from our international network to implement your cash pooling. Our solution is available in Luxembourg and in many more countries. You can integrate your accounts held in local banks. BNP Paribas has agreements with over 100 third party banks.
- You can manage your intra-group lending/borrowing relationships thanks to cash intercompany reporting.

Reliable

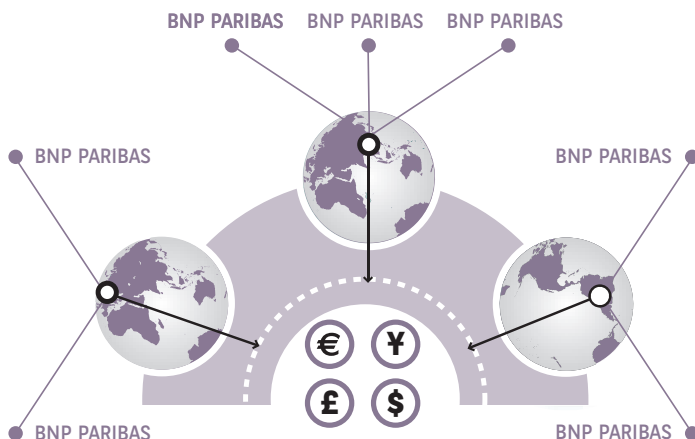

You benefit from our expertise locally:

- A dedicated Cash Management Sales.
- An expert team specialised in project implementation.

Electronic banking solutions

MultiLine - If you operate mainly in Luxembourg and the Grande Région

MultiLine is an electronic multi-bank tool designed specifically for companies based in Luxembourg. Through LuxTrust, the Luxembourg certification authority, it provides secure access to the domestic accounts you hold with BGL BNP Paribas and other Luxembourg banks. You can make credit transfers and direct debits in electronic form individually or by inputting files. You can check the status of your accounts and transactions at any time. You can also parameterise user administration and access rights.

Connexis Cash - If you need global reach on your cash and payments

Connexis is an open-ended modular solution consisting of an online platform of integrated customised services that meet your needs and requirements while ensuring flexible and optimal administration of your users' rights. Connexis provides a highly secure web-based work area that allows you to monitor your accounts in real time and gain access to multi-site and multi-bank transactional services. All your accounts with BGL BNP Paribas, the BNP Paribas group and other banks, if any, are accessible through a single gateway. With Connexis you can enter individual or batch electronic payments by importing files or directly inputting data and monitoring the status of your accounts and transactions. Most international formats (MT101 FIN, XML and many local formats) are already operational. Interfaceable with your own Treasury Management System (TMS) and Enterprise Resource Planning (ERP), Connexis features a special Liquidity Management module that allows you to monitor accounts integrated into a cash pooling system.

Multibank Electronic Reporting

To help you manage your accounts and give you a clearer view of your entire cash position, BGL BNP Paribas has designed a comprehensive range of reporting services in addition to those already available through Connexis and MultiLine.

Your end-of-day account statements and intraday balances and credits/debits are sent by fast, simple and secure remote transmission to a BIC address of your choice through the SWIFT network (FIN and/or FileAct) or in XML format.

Remote Payment Initiation IN

With Remote Payment Initiation IN (RPI-IN) you can forward your payment instructions either directly or through another bank to BGL BNP Paribas, which will execute them for you. RPI-IN is a standard, international multi-bank communication solution based on using the SWIFT private network (FIN and/or FileAct) or in XML format.
